MAX AVRAMIS

Chicago, IL | javramis@ucsd.edu | 607.280.5553 | javramis.github.io

EDUCATION

UC San Diego, School of Global Policy and Strategy San Diego, CA
Master of Public Policy — American and Comparative Business Regulation | Program Design & Evaluation *June 2026*
Quantitative Methods (Econometrics), Applied Data Analysis & Statistical Decision Making, Advanced GIS & Remote Sensing

Pace University New York, NY
Bachelor of Fine Arts *2016–2020*

SELECTED RESEARCH

Mapping the Chokepoint: A Global Vulnerability Index for the Strait of Hormuz —*Spatial Data Science (2026)*
Co-authored a reproducible index scoring 166 countries on energy exposure and substitution capacity; validated dual-resolution k-means clustering (3 and 8 archetypes) with silhouette analysis in Python and QGIS.

Integrated Dengue Early-Warning System (iDEWS) Impact Evaluation —*Evaluating Social Programs (2026)*
Designed an impact-evaluation plan for a machine-learning dengue surveillance program across 150 Philippine municipalities; stress-tested a propensity score matching (PSM) design on village-level data to construct a credible counterfactual.

Ed-Tech Interventions in Low-Infrastructure Contexts —*Quantitative Policy Capstone (2026)*
Merged effect sizes from 8 RCTs with country-level electricity access; meta-regression linked lower access to larger learning gains. Replicated a published adaptive-learning RCT in Delhi and found disadvantaged students gained as much as peers.

Wildfire Vulnerability Mapping, Attica, Greece —*GIS and Spatial Data Analysis (2025)*
Built an MCDA classification in QGIS and R combining 24 years of fire incidents, fire-station access, and population density; flagged four priority municipalities for Greece's €2.1B AEGIS civil protection program.

EXPERIENCE

Health Forecasting Alliance (VitalWave) — Client Consulting Project San Diego, CA
Business Strategy & Research Consultant *Jan 2026 – June 2026*
- Combined stakeholder interviews with five-forces analysis to build a private-sector value proposition for the CEO of an early-stage global health intelligence initiative navigating a shifting USAID funding landscape; identified target partners.
- Independently extended findings into a GIS framework scoring countries on digital health maturity, CSR, regulation, and infrastructure; supported the platform's marketing language and partner outreach strategy.

The Basement, UC San Diego (Blackstone LaunchPad) San Diego, CA
Innovating for X (i4X) Fellow — Capital Program Management *Dec 2025 – June 2026*
- Created data-cleaning pipelines for eBuilder exports on a 6-person data science team, narrowing 869 projects to the 228 with sufficient data to train a Random Forest and LightGBM ensemble deployed for UCSD Health's $6.6B capital portfolio.
- Served as the team's informal lead: split work into subteams, prepared client meetings with the Executive Director, mediated a team conflict, and finalized presentation visuals and language for bi-weekly updates and Demo Day.

UC San Diego, Department of Theatre & Dance San Diego, CA
Teaching Assistant — Introduction to Theatre (TDGE 1) *Sept 2024 – June 2026*
- Designed weekly lesson plans and led two 20-student discussion sections cultivating creative and critical observational thinking for a majority-STEM student population. Built psychological safety and facilitated structured dialogue that drew out deeper, more original analysis from students.
- Evaluated writing weekly; earned a 4.75/5 teaching evaluation score and recognized for making complex ideas accessible.

The Asia Foundation San Francisco, CA
Programs Intern *July – August 2025*
- Built a SharePoint dashboard for the Foundation's $20M internal grant fund, translating executive memos into clear guidance for 18+ country offices and 500+ staff on submitting concept notes across three funding opportunities.
- Developed donor mapping for Let's Read and scoped an n8n AI agent to scrape donor sites, score alignment, and draft memos.
- Authored an $81K children's literacy proposal for Cambodia (Tan Chin Tuan Foundation), centered on community reading spaces and educator training, with an M&E plan using baseline and follow-up surveys.

US Embassy Luxembourg Luxembourg City, LUX
Personal Assistant to the Ambassador *May–July 2018 / Sept–Dec 2020*
- Ghostwrote speeches and public communications for the Ambassador; proposed a social media plan, adopted by Public Affairs, that unified the embassy's online aesthetics and increased engagement. Recipient of the Ambassador's Award.
- Engaged visiting ambassadors, the Chamber of Commerce, and CEOs pursuing public-private partnerships.

ADDITIONAL

Methods: Propensity score matching, difference-in-differences, meta-analysis & meta-regression, econometric regression, k-means clustering, predictive modeling & forecasting (ensemble ML), index construction, MCDA, stakeholder interviews

Technical Skills: R, Python, SQL, ArcGIS Pro, QGIS, Google Earth Engine, Tableau, Excel, SharePoint, GitHub, Google Colab, Claude, Microsoft Copilot, n8n (AI agent workflows and research tools)

Languages: English (native), Spanish (intermediate), Greek (beginner)
